

Why LP® SmartSide® Is So Great!

Wood strands are laid geometrically to maximize dimensional stability.

Resin-saturated, paint-based overlay for moisture resistance and better paintability.

Treated with our zinc borate-based SmartGuard® process to resist termites and fungal decay.

Each strand of wood is coated with special binders, adding layer upon layer of strength and moisture resistance.

Proprietary edge coating helps protect the siding from the elements.

Deeply embossed cedar grain pattern for traditional look.

Cal. Prop 65 Warning: Use of this product may result in exposure to wood dust, known to the State of California to cause cancer.
